FOR IMMEDIATE RELEASE

Affordable Simplicity: UMF Medical Transforms Exam Room Cleaning for Every Budget

JOHNSTOWN, PA – July 11, 2023 – UMF Medical, the manufacturer of the most innovative exam tables on the market, is once again making it easier to clean the Exam Room. Offering the OneTouch WheelBase® System in the popular FusionONE and FusionONE+ models and new premium upholstery with PreFixx™ Protective Finish, UMF Medical is enhancing infection prevention in outpatient settings with an affordable solution.

"We realize infection prevention is a priority for every healthcare system -- not only for the care of patients but for the health and safety of their staff. At the heart of innovation lies listening to customers, who asked for enhanced mobility and premium upholstery - at an affordable price," said Eileen Melvin, President & CEO of UMF Medical. "We've listened, and today we are offering both."

The FusionONE Series of Power Exam Tables is a cost-effective, ADA-accessible power exam table, making ADA access more feasible for every exam room.

Melvin continued, "With the ability to move the exam table, staff can quickly gain access to clean and disinfect the entire area, helping to reduce healthcare-associated infections."

The OneTouch WheelBase® System also facilitates convenient room space adjustments, ensuring ample access to the exam table for patients. Additionally, every model in the FusionONE Series is now available with new contoured, seamless premium upholstery equipped with PreFixx™ Protective Finish, allowing for effortless cleaning and disinfecting.
